

MB112

The MB112 is one of Funktion-One's most compact bass enclosures. It provides great bass extension to the F55 and F81 loudspeakers in applications such as bars, restaurants and home studios. It comprises a single 12" loudspeaker handling 250 Watts and averaging an impressive 104dB sensitivity between 60Hz and 160Hz. There is also a self powered version available which elegantly solves the issue of a mono-sum, crossover and amplification set up.

Driver	Sensitivity (1W at 1m)	Power (rms*)	Nominal Impedance
12" <i>*AES rated</i>	104dB	250W	8Ω
Frequency Response ±3dB:	60Hz - 160Hz		
Weight (unpowered):	20kg (44lbs)		
(powered):	21kg (46lbs)		
Construction:	15mm Birch Ply		
Connectors	2 x Speakon NL4		
(unpowered):	XLR Left & Right (mono sum)		
(powered):
