

MICROBASS 210

The Microbass 210 is a very compact version of Funktion-One's infrabass technology which can be used to provide bass extension to the smaller Funktion-One loudspeakers. The Microbass consists of 2 x Funktion-One 16 Ohm 10" loudspeakers which drive a ported resonant chamber enclosure handling 400 Watts and averaging 103dB sensitivity between 50Hz and 125Hz. The 8 Ohm enclosure allows multiple units to be driven by one amplifier.

Features:

- Patented loading technology
- Funktion One designed drivers
- Includes a curved stainless steel grill
- Integral handles
- Integral flying points

| Driver | Sensitivity (1W at 1m) | Power (rms*) | Nominal Impedance |
|------------------------------|---------------------------|-----------------|----------------------|
| 2 x 10" <i>*AES rated</i> | 103dB | 400W | 8Ω |

Frequency Response ±3dB:

40Hz - 150Hz

Weight:

34kg (75lbs)

Construction:

15mm Birch Ply

Connectors:

2 x Speakon NL4
